ARE YOU EQUIPPED FOR THE CHANGES AHEAD?

The 12 System Seminar is unique. It answers questions and offers solutions by integrating philosophy, science and psychology in a stream-lined package.

In this action packed 1 day seminar we will explore our current point in human evolution and why 2012 will open an exciting new phase. You will then learn 3 powerful simple models to support your growth and prosperity during "The Shift" from the old world view to a new one.

Model 1 The 12 System offers us a timing system so we can re-connect to our 'natural life cycles'. Did you know that there are 5 cycles in your life that determine when it's the right time to make important decisions; getting married, changing careers, having children or moving. This model introduces these cycles so you can synchronise your goals successfully.

Model 2 The 12 System is a tool for defining and releasing limiting beliefs that have impeded you in the past. Then, with clarity of thought, you can empower your potential for success and happiness.

Model 3 The 12 System is a tool for planning your year. It uses 12 developmental stages, so you'll know just which ingredients to add at the right time and in exactly the right order!
