

2012 Professional Astrology Training Program

Maggie Kerr (AAT)

Gold Coast – Interstate Group Members Welcome!

**A series of 4 x 2 day Workshops offering in depth
Chart Delineation Synthesis & Presentation.**

Whether your goal is to work with clients as a Professional Astrologer, or simply to develop your skills for your own evolution, Maggie's 30 years 'front line' experience offers strategic skills and tools for integrating the core ingredients of the Horoscope...and how to present them.

In this 4 part series (every 2nd month) we will work with a synthesis of Astrology and Psychotherapy. The natal chart is a **diagnostic tool** for analysing the Soul's choices for evolution 'this time around'. By applying basic tools from psyche models we can identify how the Soul actually programs the psyche with the necessary 'Core Beliefs' needed to 'drive' this evolution. The goal of a Therapeutic Astrologer is to support making conscious the 'unconscious patterns' creating repeating themes of experience, and then offer **tools to make 'limiting patterns' functional and useful...allowing the achievement of the Soul's true potential.**

Thus we are able to **'synthesize' the many divergent components of our makeup...**i.e. planets/ signs/ aspects/houses/timings...to help unravel the jigsaw puzzle of how our interlinking patterns can become functionally linked!!

We will work with core **astrological theory, integrate predictive timing systems and polish the process with counselling approaches and great models from psychotherapy.** Quite an adventure to share over the year ahead 2012! We will do this within a structured system with each Session leading to the next and so on. There will be self study assignments to be completed by participants between each session, with a **Certificate of Achievement** for those who complete the package.

As an Accredited Astrology Teacher and member of the FAA Exam Board I am very aware of the standard required to achieve the FAA Diploma, so my goal is to support those who wish to achieve this. However if this is not your goal then no problems...you will gain a very integrated outcome for your own purposes! This is also a neat opportunity to 'get together' & have powerful fun with a focus on healing and growth!
