Our evening's discussion will set the stage for the detailed astrological and earthy explorations of the weekend. We will meet and integrate the effects of the planetary players at work over the next 4 years and integrate Saturn's passage through Libra & Scorpio; Jupiter's transits through Pisces, Aries & Taurus; Neptune's entrance into Pisces; Uranus' seven year visit in Aries, and Pluto's 16 year stay in Capricorn.

Saturday: 10.00am till 5.00pm—registration from 9.00am

**Morning session I:** The scheme of things.

Maps and diagrams (copies to be distributed to participants) outlining the positions and timing of the major "sky show" taking place from 2010 to 2016 are to be presented. Alan and Maggie will give out clear and precise delineations of all these planetary transits and cycles.

**Morning session II:** Making sense out of the complexity of the scheme.

A discussion of the planetary archetypes and their political, psychological, and spiritual implications. This session is devoted to synthesis: putting the many transiting patterns into an order that has practical meaning for our personal and planetary life.

**Afternoon session I:** The Eclipses--the additional triggering factor.

A discussion about the meaning of solar and lunar eclipses with an emphasis on the eclipse pattern unfolding over the course of the next few years. How do the eclipses affect the transits and then how can we translate this into the individual's horoscope and the unfolding world body politic?

**Afternoon session II:** 2012, the Mayan Calendar, Age of Aquarius and the end of a huge cycle in time and space.

This talk is an examination of the principles of the Mayan Calendar that have given rise to so much speculation surrounding the year 2012. What is actually taking place in the heavens at that time and how will that affect us here on the Mother Planet?

**The God(dess)'s arrow lands: Applied astrology within the consulting framework.**

Now that we have the "alphabet" of these events, let's build the words and phrases that will help us grasp the unfolding picture and bring this information home to our own charts. The entire day is given over to the interpretation of the horoscopes of the participants. Maggie and Alan will be reading as many charts as the day allows so that not only the people whose charts have been (randomly) selected may benefit from their insights, but all of the participants will be able to see how these major planetary movements will affect us all.

Morning and Afternoon tea is provided.

On the Gold Coast a buffet banquet is available for \$10 and in Sydney lunch can be purchased at the surrounding restaurants.
