Greetings fellow travellers many thanks for joining me for my annual overview of what the planetary orchestra have in store for us as we head into the next act of our global evolutionary drama...

It is imperative we move beyond fear and confusion as old systems are collapsing and align our hearts and minds with the NEW

CONSCIOUSNESS of our brand-new world view currently emerging, loaded with fresh ideas and solutions! I hope you enjoy my small offering to support guiding us toward this new era where the spirit of co-operation and cohesion may bring us together to give birth to a New Earth as the old one is passing away.

[Here is the link to my Podcast with dear friend Austyn Wells, where we share lots of cool stuff to support your evolution in this year of recalibration of our personal and global vision!](#)

2023 brings us a once in 250-year cycle as power planet Pluto briefly opens his journey through the revolutionary sign of Aquarius, and Saturn heads into the final sign of Pisces before beginning his new cycle in Aries in 2025.

Indeed by 2025/6 with Pluto in Aquarius, and Neptune opening his new 164 year cycle in Aries, plus Uranus opening his new 84 year

cycle in Gemini, we will fully step in to the new era or epoch of modern history.

I also take you on a tour through the Solar System explaining how Astrology maps the larger evolutionary cycles and reflects the 'Universal Rhythm' of life and how best to flow with this rhythm for our own conscious evolution. I explain how the planets affect us physically, emotionally and at a Soul level, how 'retrograde planets' operate and why, and all sorts of interesting info about 'metaphysics' and energy systems, and emotional healing ideas...and so much more!

I welcome you to book a personal session with me or enrol in my Astrology training

www.universalastrology.com.au and send my love to all for a safe and prosperous 2023!
