The Astrology of Conscious Relationships

2 day Workshop Saturday 14th & Saturday 21st January 2017

**As expansive Jupiter is now in Libra for his once in 12 year visit it's time to focus on RELATIONSHIPS!
So please join me for our January 2017 Summer School 2 day program.**

Every time we open our mouths and transact with another person we are in relationship!
They are essential if we are to grow and fulfil ourselves let alone find happiness and love.
Yet most of us have issues with this fundamental aspect of life, as they are the source of our greatest growth...and our greatest challenges.

Over these 2 experiential days we will:

- ❖ Cover the themes the Cardinal Cross where set up our relationship karmas in our family when we are small & then magnetize 'people to play it out with' throughout our lives!
- ❖ Explore the history & mythology of 'Romantic love', and how this programming is at odds with the individuation process currently upsetting so many traditional co-dependent relationships. How may we achieve 'freedom AND closeness'?
- ❖ Identify co-dependent & addictive relationships & how to heal them.
- ❖ Cover 'Relationship Theory' – the 4 stages of relationship required to achieve healthy outcomes.
- ❖ Explore Soul Mates - Twin Flames...and all that stuff!
- ❖ Work with models to identify our 'relationship positions', defense mechanisms, and how these create the 'games we play' in our attempts to get our needs met personally & professionally.
- ❖ Cover the core techniques of Synastry & Composite Charts & then practice these with group members who'd like to volunteer to share their story.

This is some of the simple empowering information and tools I use in my daily practice that provide huge 'ah ha moments' and lead to breakthroughs for healing & change.
